## ORGANIC SHIRTS

Environmental issues are of great concern to us at Velour. Therefore we offer a selection of classic shirts made out of organically grown cotton. 'Organic' is a term that can be exploited in marketing, which makes it important to select collaborators carefully. Through the service *green effort*<sup>®</sup> we can

follow the fabric production in every step and control that our products will keep their promises. Unlike many other organic fabrics ours is not blended with ordinary cotton, instead we guarantee a material content of 100% organic cotton. Do you share our concern – choose our organic range!

**CHINOS**

The Velour chinos are plain and narrow trousers made with a bit of stretch, for the right effortless feeling. The look is traditional, yet here-and-now.
